2019 International Year of the Periodic Table

Timeline of Elements

The artwork can depict the element in an obvious (discoverer, location or experiment) or subtle way. As much as possible the focus should be on the discovery or history of the element.

Your hexagon canvas needs to be 8 inches from side to side

- Your atomic number and symbol must be clearly displayed.
- Original work only, the choice of medium is up to the artist(s).
- Please do not use copyrighted images.
- The artwork will be submitted electronically, as a scan or a photograph.
- The resolution should be 400 dpi (check your scanner).
